

# CLINICAL MONITOR INTERFACES

View and Verify Monitor Data & Images

With **Clinical Monitor Interface (CMI)**, clinicians can view clinical monitor alpha-numeric data and images data without ever leaving their MEDITECH applications. CMI is a scalable solution that can handle multiple monitor interfaces, from one vendor or many different vendors. CMI also lets users review, verify and load data into the MEDITECH system. With CMI, you can access clinical monitor data and images easily in MEDITECH, without spending hundreds of thousands of dollars on interfaces.
