

IatriConnect

Physician Office Portal

IatriConnect is a cost effective, secure method of viewing a hospital's MEDITECH patient results via the Internet, from the comfort of a physician's office. Do some physician offices lack EMR software at their practices? Do some physicians want to break free of the confines of PCI and EMR and be able to customize the way they look at patient results? **IatriConnect** addresses these needs. **IatriConnect** also helps hospitals compete with commercial laboratories by enabling physicians to access hospital lab results on-line at their practices. Equally important, as a result of its design, **IatriConnect** also assists with Business Continuity by providing patient data during MEDITECH downtimes.

Key Advantages and Features:

- Cost effective, web-enabled and secure
- Specifically designed for physician offices that currently do not have an EMR system
- Enables easy access to hospital lab results, radiology reports, nursing notes, vitals signs, etc.
- Physician dashboard is highly customizable by the end user
- Enables physicians to track patients and mark results for follow-up
- Enables hospitals to compete with commercial laboratories and provide Business Continuity during MEDITECH downtimes

The screenshot displays the IatriConnect interface for a patient named Hugo Snowman. The top navigation bar includes the IatriConnect logo, environment information (Iatric General Hospital - DEV Environment), the date (Tuesday, November 14, 2006), and a patient lookup field. Below this, patient information is shown: Snowman, Hugo; Sex: F; DOB: 5/31/1947; Age: 59; Account Number: W04003796853. A sidebar on the left contains navigation options like Reports, My Physician Groups, My Portal Zones, My View, My Follow-Ups, Site Administration, Help, and Logoff. The main content area shows a table of lab results for a 'BASIC METABOLIC PANEL' ordered on 03/24/2006. The table includes columns for Component, Value, Reference Ranges, and Units. A trend chart at the bottom shows the BUN/Creatinine Ratio for Hugo Snowman from 3/18/2006 to 3/27/2006, with values ranging from 04.47 to 06.31. The chart is titled 'Snowman, Hugo - 14 - BUN/CREATININE RATIO' and includes 'Chart Options' for selecting the date span and dates.

Component	C	Value	Flags	Reference Ranges	Units	Comment
GLUCOSE	70	70		70-110	MG/DL	
CHLORIDE	93	93		95-110	MMOL/L	
CARBON DIOXIDE	21.9	21.9		24-30	MMOL/L	
CREATININE	5.7	5.7		0.5-1.4	MG/DL	
SODIUM	134	134		136-145	MMOL/L	
BLOOD UREA NITROGEN	32	32		5-25	MG/DL
