

MEDICAL NECESSITY ORDERMATE (MNO)

Integrated & Efficient Medical Necessity Evaluation

Hundreds of MEDITECH hospitals across the nation are utilizing Iatric Systems' **Medical Necessity Ordermate (MNO)** software. MNO has helped hospitals quickly and significantly reduce write offs previously caused by procedures deemed medically unnecessary by third party payors. With MNO, failing procedures are identified before patient services are rendered, and physician office phone numbers are presented automatically to end-users so staff can obtain appropriate diagnoses quickly and easily. Our unique keyword dictionaries help hospitals avoid the cost of placing coders in patient access areas by providing a mechanism for easily converting descriptive procedures and diagnoses into CPT and ICD-9 codes. MNO is the most efficient medical necessity evaluation tool available in the MEDITECH marketplace, and it is available in MAGIC and Client Server versions.

Key Advantages Include:

- ✓ Reduction of write offs previously caused by medical necessity failure
- ✓ CMS compliance and avoidance of associated penalties
- ✓ Complete integration with CWS, ADM, LAB and OE applications without costly interfaces
- ✓ ABN generation while patient is still available for signature
- ✓ Physician statistics for trending and education
- ✓ Part B Medicare Medical Necessity for offsite clinical areas and physician office use

Give staff flexibility – use MNO in Scheduling, Registration, in Physician Offices, the Lab or in other ancillary areas!

Additional Advantages Include:

- ✓ Automatic reminders help staff remember to check for medical necessity when appropriate
- ✓ Keywords help staff easily convert descriptive procedures and diagnoses into CPT and ICD-9 codes
- ✓ Automated ABN and NEMB generation
- ✓ Screening for age/gender restrictions, frequency limitations, secondary diagnoses and inpatient only procedures

MNO is a sophisticated and mature pre-service medical necessity evaluation tool and its features are numerous, so be sure to obtain our **MNO Product Features** brochure in order to learn more.
