

Patient Discharge Instructions (PDI)

provides the means for thorough medication reconciliation across the continuum of care.

Meeting your accreditation requirements just got easier!

Patient Discharge Instructions (PDI) and Patient Discharge Prescriptions (PDP) have a new look along with new features, allowing you to meet the medication reconciliation standards, provide decision support and improve user satisfaction.

PDI and PDP incorporate home, transfer and discharge medication lists on one screen. Whether your patient is in the Emergency Department, an outpatient clinic, Same Day Care, an inpatient unit or has recurring appointments, PDI provides the continuity required to ensure that the history of each visit is accessible when the patient returns.

Key Advantages Include:

- Allergy, interaction and duplicate checking
- Current and home medications on one screen
- Electronic medication reconciliation
- Windows Desktop functionality
