

FORMS ONLINE

Complete Integration of Electronic Forms

"Southeast MO has replaced 400+ paper forms with FOL"

Brian Golden, RN, Clinical Applications Coordinator
Southeast Missouri Hospital, Cape Girardeau, MO

Forms OnLine (FOL) allows your organization to create and manage form overlays for use with laser printers on your MEDITECH™ System. Stop purchasing pre-printed paper forms, expensive cartridges for each laser printer, or looking to expensive form overlay software options for a solution! FOL lets you create forms using solely your MEDITECH and FOL software, and it provides the solution at a fraction of the cost of other forms overlay options! Many clients have found they can cost justify FOL in just a few short months by saving on their forms budgets. FOL can be used with network printers, LPR printers and printers connected to MAGIC or TCP/IP term servers.

FOL + MEDITECH data = Huge cost savings

Key Advantages Include:

- ✓ Print forms only as needed
- ✓ Replace expensive forms with standard paper
- ✓ Query-response triggered printing
- ✓ Automatic forms routing
- ✓ Automate production of forms (e.g. patient education forms)
- ✓ Print Code 128 bar codes
- ✓ Print AP and payroll checks with security assurances
- ✓ Avoid missing forms / "stock-outs"
- ✓ Revise and instantly have new forms available
- ✓ Save office storage space, since there won't be a "stockpile" at each workstation.

Examples of Forms OnLine in Use: Here are some common examples of electronic forms that have been created using FOL at customer sites:

- | | | |
|-----------------------------------------|------------------------------|--------------------|
| ✓ Admissions Facesheets | ✓ Physician Orders | ✓ Payroll Vouchers |
| ✓ Wrist Labels | ✓ Progress Notes | ✓ Bills |
| ✓ Medicare Patient Information Handouts | ✓ Patient Education Handouts | ✓ Statements |
| ✓ Consent Forms | ✓ AP & Payroll Checks | ✓ Many more... |
