

# FORMS ONLINE

Complete Integration of Electronic Forms

**Forms OnLine (FOL)** allows your organization to create, customize and manage electronic forms that merge graphical data with information from your MEDITECH System.

**Simple and sophisticated.** Using FOL is easy to use, yet powerful. Simply create your form template using whatever software you prefer (Microsoft Word, etc.). Upload the template into FOL using our upload routine, then choose standard MEDITECH routines for data or create an NPR report to customize data. FOL will merge your template and MEDITECH data into one electronic form. FOL can be used with network printers, LPR printers and printers connected to MAGIC or TCP/IP term servers. No additional hardware or servers are required to utilize FOL.

**Advanced Features Include:**

- ✓ Conditional Printing
- ✓ Automatic Forms Routing
- ✓ Patient Packets
- ✓ Code 128 Bar Codes
- ✓ Multi-Level Security (for AP and Payroll checks)

For a demonstration or more information on **FOL**, or any other Iatric Systems products or services, please contact us using the information below.
