

MDAccess is a cost effective, secure method of viewing a hospital's patient results via the Internet. Do some physicians lack EMR software at their practices? Do physicians ever request a more customized view of patient results? MDAccess addresses these needs.

Physician patient results portal

Do some physicians lack EMR software at their practices? Do physicians ever request a more customized view of patient results? MDAccess addresses these needs.

MDAccess also helps hospitals compete with commercial laboratories by enabling physicians to access hospital lab results online at their practices. Equally important, as a result of its design, MDAccess assists with Business Continuity by providing patient data during hospital HIS downtimes.

MDAccess is part of the IatricConnect suite of applications. For more information on MDAccess, or any other Iatric Systems products or services, please contact us using the information below.

Key Advantages Include:

- Specifically designed for physician offices that currently do not have an EMR system
- Provides easy access to hospital lab results, radiology reports, nursing notes, vitals signs, etc.
- Allows physicians to track patients and mark results for follow-up
- Allows each physician to modify the dashboard to view results in a personalized fashion
- Enables hospitals to compete with commercial laboratories and provide Business Continuity during HIS downtimes
- Cost effective, web-enabled and secure
