

MOBILCHARGE

Streamline Patient Charge Capture at the Point of Care

MobilCharge can help improve patient charge capture at your hospital.

With MobilCharge, you will capture previously lost charges, and you won't have to remember to key charges into the computer manually from sticky labels. Using wireless handheld and barcode technology, MobilCharge enables you to identify a patient positively via barcoded wristband, so you scan chargeable items as they are used. Furthermore, because MobilCharge is seamlessly integrated with MEDITECH, with the touch of a button the user can update MM and B/AR automatically to reflect each patient item issued.

Key Advantages:

- ✓ Improves patient charge capture at the point of care
- ✓ Uses barcode scanning technology for ease of use
- ✓ Transmits charges to B/AR and updates MM to reflect patient issues
